Actual estimates	March 2000	March 2001	% change between March 2000 and March 2001	% change between January 2000 to March 2000 and January 2001 to March 2001
Room occupancy rate (%)	56,2	55,4	-1,4	1,1
Bed occupancy rate (%)	38,0	37,3	-1,8	1,1
Hotel income (R million)	493,2	501,8	1,7	2,7

Key findings for the month ended March 2001

The average room occupancy rate and the average bed occupancy rate of hotels in South Africa for March 2001 decreased by 1,4% and 1,8% respectively, compared with March 2000. Decreases in the room and bed occupancy rates were recorded in 4 of the 9 provinces. Mpumalanga recorded the largest decrease in the room occupancy rate (-8,1%), followed by Western Cape (-6,0%) and Gauteng (-3,1%). Both Western Cape and Mpumalanga recorded the largest decrease in the bed occupancy rate (-7,0%), followed by Gauteng (-2,5%) and Eastern Cape (-1,4%). However, the average total hotel income rate for March 2001 increased by 1,7% compared with March 2000.

Decreases in the room occupancy rate were recorded in 15 of the 25 tourism regions for March 2001 compared with March 2000 (cf. table B, column 2). Little and Central Karoo tourism region recorded the largest decrease in the room occupancy rate (-37,8%), followed by Pretoria tourism region (-15,5%) and Wineland tourism region (-9,8%). Large increases were recorded by Rest of KwaZulu-Natal tourism region (+9,9%) and Algoa tourism region (+9,3%). The large decrease in the Little and Central Karoo tourism region was mainly due to the fact that in 2000, the Arts Festival took place in March, whereas in 2001, it took place in April.

Decreases in the bed occupancy rate were recorded in 15 of the 25 tourism regions during the above-mentioned period (cf. table B, column 3). Little and Central Karoo tourism region recorded the largest decrease in the bed occupancy rate (-37,1%), followed by Pretoria tourism region (-16,3%) and Wineland

tourism region (-9,6%). Large increases were recorded by Algoa tourism region (+10,4%) and Rest of KwaZulu-Natal tourism region (+10,0%).

Increases in total hotel income were recorded in 10 of the 25 tourism regions during the above-mentioned period (cf. table B, column 4). Northern Province tourism region recorded the largest increase in total hotel income (+24,6%), followed by North West tourism region (+12,0%) and Algoa tourism region (+10,5%). However, large decreases in hotel income were reported by hotels in Little and Central Karoo tourism region (-39,0%) and Pretoria tourism region (-15,3%).

Key figures for the month ended March 2001

Table B - Percentage change in room and bed occupancy rates and total hotel income for March 2001 compared with March 2000 according to province and tourism region

	<p>July 2001</p> <p>August 2001</p> <p>September 2001</p> <p>October 2001</p> <p>November 2001</p> <p>December 2001</p>	<p>13 September 2001</p> <p>18 October 2001</p> <p>15 November 2001</p> <p>20 December 2001</p> <p>17 January 2002</p> <p>14 February 2001</p>
Purpose of the survey	<p>The Survey of Trading Statistics of Hotels is a monthly survey covering a sample of private establishments in the formal accommodation industry in South Africa. The results of the survey are used to compile estimates of the Gross Domestic Product (GDP) and its components, which are used to develop and monitor government policy. These statistics are also used by the private sector in analyses of comparative business and industry performance. The results are published monthly in statistical release P6441 – Hotels: trading statistics.</p>	
New questionnaire	<p>The Survey of Trading Statistics of Hotels was re-engineered in consultation with major stakeholders with the purpose of incorporating users' needs. This resulted in the change of some data items on the old questionnaire.</p> <p>The new questionnaire only collects the following data items -</p> <ul style="list-style-type: none"> ▪ room income; ▪ income from catering; ▪ income from bar-sales; ▪ income from off sales; ▪ other income (sundries); ▪ total number of rooms available; 	

	<ul style="list-style-type: none"> ▪ total number of room nights sold; ▪ total number of beds available; and ▪ total number of bed nights sold.
Changes regarding tourism regions	<p>After consultation with major stakeholders in the hotel industry, the following changes regarding tourism regions were made and the first results were published in statistical release P6441 - Hotels: trading statistics, January 2000 on 16 March 2000:</p> <ul style="list-style-type: none"> ▪ Current tourism regions are grouped according to towns and cities, while the previous tourism regions were grouped according to magisterial districts <p>(cf. table 8).</p> <ul style="list-style-type: none"> ▪ Hotels in Sandton which were previously included in the Rest of Gauteng tourism region, are now included in Johannesburg tourism region. ▪ Jacaranda tourism region is called Pretoria tourism region. ▪ The Lowveld and Escarpment tourism region and the Rest of Mpumalanga tourism region have been combined and is now called Mpumalanga tourism region. ▪ The Rest of Gauteng tourism region and the Johannesburg tourism region were combined for comparison purposes in table B (cf. page 2). As a result of this, Stats SA now reports on 25 tourism regions in table B instead of 26 tourism regions. For more information, see table C, page 8.
New sample	<p>According to international best practice and in order to train the relevant respondents in using the new questionnaire, validate the information received and avoid a break in the time series published in this statistical release, Stats SA decided to introduce the new questionnaire as the first step in the re-engineering process. Stats SA will in due course, as the second step, introduce a new sample.</p>

Currently Stats SA is busy re-engineering the register of businesses which serves as the sampling frame, in collaboration with the South African Revenue Service and the Departments of Trade and Industry and Labour. The process will take some time, since there are hundreds of thousands of businesses, many of whom are, in any given period, changing ownership, closing, or being registered. As soon as this improvement in the listing and classification of businesses has been implemented, Stats SA will draw a new sample. Stats SA will endeavour to include new economic activities such as cellular telephone networks, internet service providers and satellite TV as soon as these additional sources of information become available.

Table C - Classification of towns and cities according to the new and old tourism regions

New tourism region	New towns and cities	Old tourism region	Magisterial districts
Cape Metropole	Cape Town, Bloubergstrand, Wynberg, Milnerton, Kommetjie, Sunnysdale, Scarborough, Fish Hoek, Ocean View, Simon's Town, Bellville, Durbanville, Kraaifontein, Parow, Belhar, Elsies River, Kuils River, Blackheath, Brackenfell, Penhill, Faure, Rustdal, Scottsdene, North Pine, Blue Downs.	Cape Metropole	Cape Town, Bloubergstrand, Wynberg, Milnerton, Kommetjie, Sunnysdale, Scarborough, Fish Hoek, Ocean View, Simon's Town, Bellville, Durbanville, Kraaifontein, Parow, Belhar, Elsies River, Kuils River, Blackheath, Brackenfell, Penhill, Faure, Rustdal, Scottsdene, North Pine, Blue Downs.
Wineland	Somerset-West, Sir Lowry's Pass, Khayalitsha, Macassar Beach, Paarl, Franschoek, Klipmuts, Mbekweni, Faure, Kylemore, Jamestown, Kayamandi, Stellenbosch, Wellington. Additional information

Explanatory notes

Introduction 1	<p>This publication contains results of the monthly Survey of Trading Statistics of Hotels conducted in March 2001. The survey is designed to obtain information regarding -</p> <ul style="list-style-type: none"> • room income; • income from catering; • income from bar-sales; • income from off sales; • other income (sundries); • total number of rooms available; • total number of room nights sold;
-----------------------	---

	<ul style="list-style-type: none"> • total number of beds available; and • total number of bed nights sold.
Scope of the survey 2	The information is collected from a sample of hotels in South Africa and the results are published according to star grading, the nine provinces and 26 tourism regions as indicated in table 8. Stats SA updates the sample and the population of hotels in South Africa regularly as new hotels become operational or others close down. Hotels operating mainly on a time-share basis are excluded.
Classification 3	This publication provides information of trading statistics of hotels according to star grading, nine provinces and 26 tourism regions. The star grading system according to Satour's National Grading and Classification Scheme, classifies three-, four- and five-star hotels as having very good to outstanding standards, while one- and two-star hotels are classified as comfortable hotels. Ungraded hotels are not of a lesser standard, they just choose not to participate in the National Grading and Classification Scheme of Satour.
4	The 1993 edition of the Standard Industrial Classification of all Economic Activities (SIC), Fifth Edition, Report No. 09-90-02, was used to classify the statistical units in the survey. The SIC is based on the 1990 International Standard Industrial Classification of all Economic Activities (ISIC) with suitable adaptations for local conditions. Statistics in this publication are presented at SIC group (4 digit) level.
Statistical unit 5	The statistical unit for the survey is the smallest economic unit (the hotel and its activities) that functions as a separate entity for which comprehensive financial statements are kept.
Survey methodology 6 and design	Information obtained from Satour provides the sampling frame for the selection of the sample of hotels for the monthly Survey of Trading Statistics of Hotels. Hotels in the sample are stratified according to star grading within each tourism region. The survey is collected by mail each month from a sample of approximately 430 hotels in 26 tourism regions. All three-, four-, and five-star hotels are completely enumerated. A systematic sample is drawn from ungraded hotels and one- and two-star hotels.
